Choose your house plan

Choose from the five reliable and accurate house plan options provided by estate builders. A number of amenities are provided within this project including play area, parking facilities and badminton court.

The Verano

GF

It was imperative that all the configurations available to our customers had a personal touch. This is very prominent with Verano. A contemporary 2BHK configuration is laid out in such a way that it feels very much like home. This configuration as with the rest, comes with amenities like a spacious car parking, tennis court and recreational space.

FF

The Primavera

GF

This configuration is the crown jewel of the elite project. A sprawling ground floor plan comes with an in built garage and a spacious kitchen. Both of which are unique to primavera. The curved textured brick wall that is unique to this layout is a stunning addition to both the elevation and the interior space that we believe clients with a more contemporary tastes will appreciate. As with all layouts, the top floor is customizable and can accommodate additional rooms.

FF

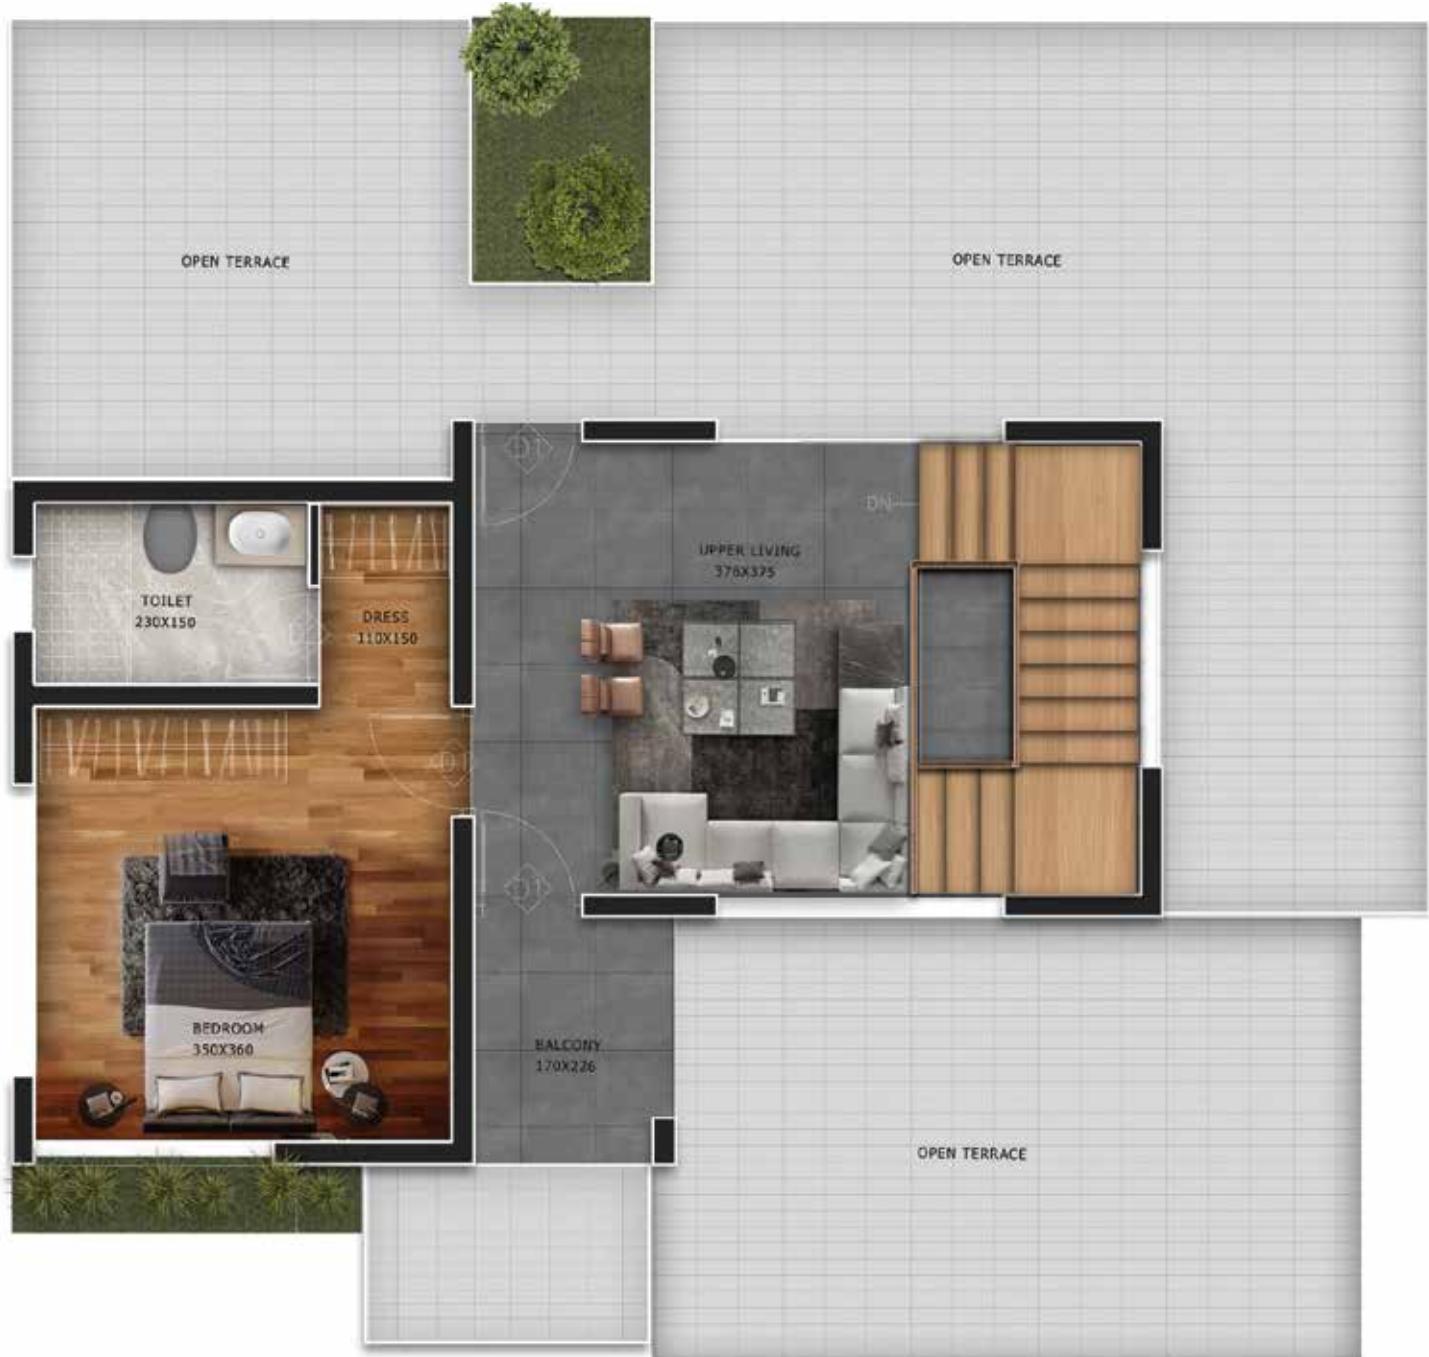

The Otonio

GF

This layout prioritizes privacy. With individual doors to each room within the house. It also comes with the largest deck space among all the configurations for your outdoor social gatherings.
